

## **New Feature in NLYH Website**

In response to a number of requests from Members we are launching a new feature on the NLYH Website. In October, we will post our Meeting Minutes and attachments on the Website, in a password protected section, to be accessed by Members only. This will allow Members to learn about the BOD Meeting Agenda topics, and Meeting Minutes, related to those topics, without having to come to the Bulletin Boards at the Clubhouse and the Shuffleboard Courts. We will also use this section of the website to post information of interest/value to all Members of the Community.

We will continue to comply with the By-Law required posting of our Agendas and Minutes of BOD Meetings on the two Bulletin Boards but wanted to provide this additional opportunity to see the information more easily, when they're in residence and when they are away from the Community.

There will be a button on the Corporate News page that will bring you to an area where you can enter the Password. That will bring you to the **Corporate Information Home Page**. There you will see headings for **Board of Director's Meetings, Rules and By-Law proposals**, and for **Corporate Communications**. There will be a link for each of these to bring you to the selected information area. In the **Board of Director's Meetings** area, for example, you will see "**Current Board Minutes**", "**Past BOD Minutes**", and "**Agenda for the next BOD Meeting**". We will populate the site with the Agenda and Minutes of the meeting on April 26, 2017, as an example of what we plan to provide. In **Current Board Minutes**, there will be icons to click to see any attachments that might be part of the Minutes if you want to see the detail behind an issue/decision. The **Rules & By-Law** area will contain any proposed changes to Rules & By-Laws when they are posted so that people can review them before the BOD votes on them. The **Corporate Communications** area will contain subjects that are of interest to the entire Community. One example of that will be updates on the process of installing the new Summit Broadband infrastructure, so that people know what to expect and are aware of the timetable for each part of the process.

We planned to launch this new service on October 11, 2017, but have decided to move that up to provide Communications related to the Irma Hurricane. You can access the website now. Type in the password and check out the Corporate Communications area for updates and information that will assist you as we work to restore our Community. You can also get access to the latest Meeting Agenda, Meeting Minutes and other general information of value to members. We hope you find this new feature helpful.

Kate Linehan, Secretary,

NLYH BOD
